

Garbutt Substation Upgrade Project - Construction Notice

NETWORK

Part of Energy Queensland

April 2024

What we are doing

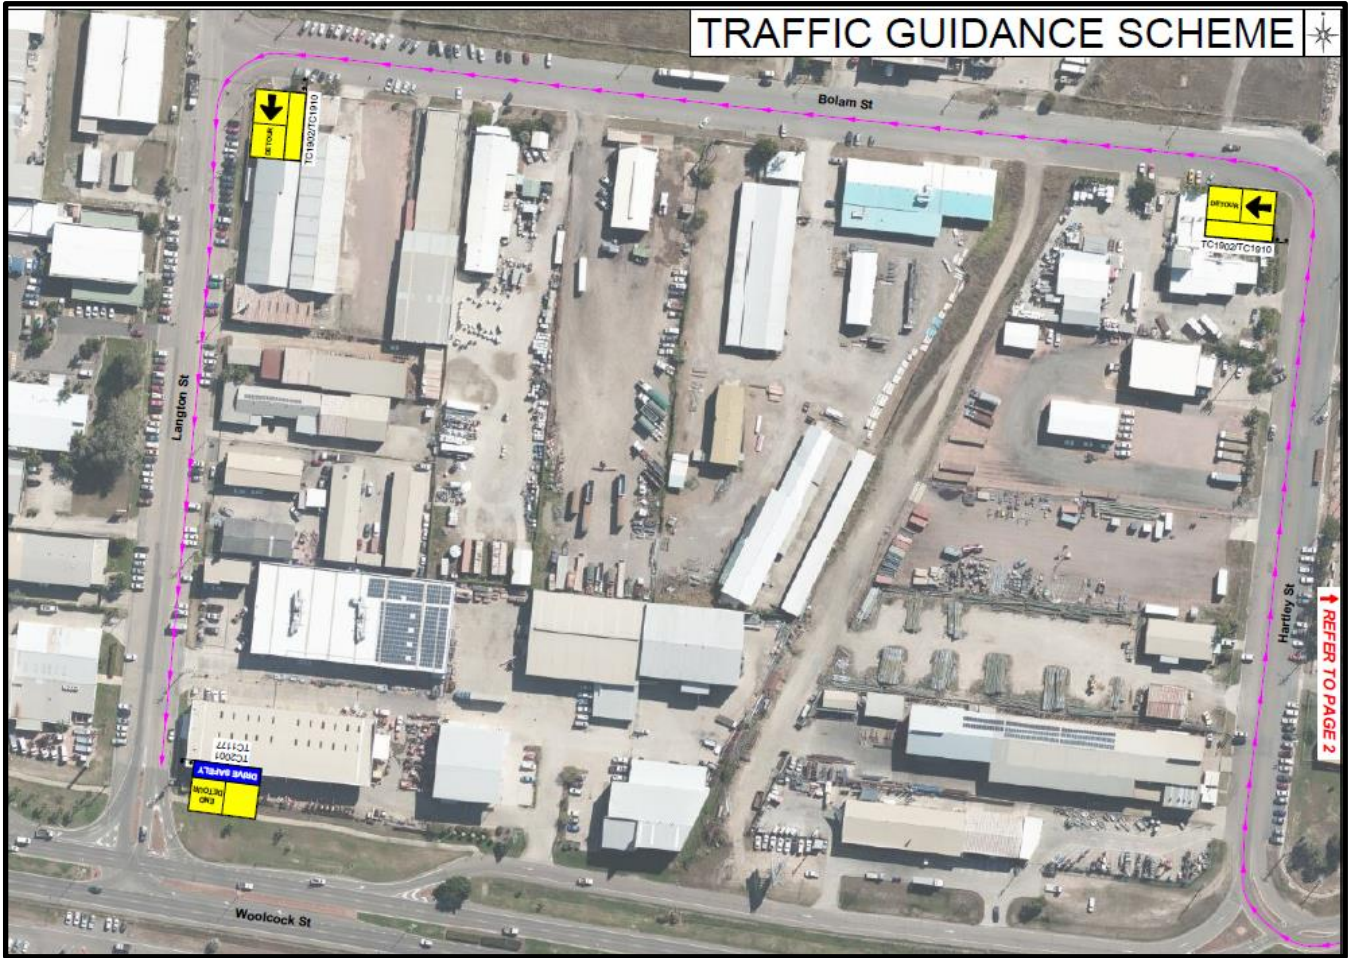

On 29th April, we will be commencing work at the back of the Ergon Depot, to connect the first of the 66,000-volt cables from the Garbutt substation to the surrounding electricity network. To complete this work safely, road closures and detours will be in place around the Garbutt substation project area during this time.

What to expect

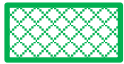

During these works, road users and nearby businesses can expect the following:

- The construction of a large scaffold tower and work platform (see sample image) where electrical termination equipment will be installed on the underground cables from Garbutt Substation and connected to the overhead network at the top of the pole.
- Woolcock Street Service Road (green hashed area in below map), behind the Ergon depot, will be closed for a period of around 2 weeks from 29th April.
- Traffic will be permitted to exit Woolcock Street to access the Dalrymple Service Road under traffic control – see detour maps below.
- There will be no turning onto the Woolcock Service Road from Dalrymple Road to access Woolcock Street. To access Woolcock Street, traffic will be redirected via Hartley, Bolam and Langton Streets as per detour path on the maps.

Map Legend

Work area – road closed

One lane closed – under traffic control

Traffic controller directed detour

Alternate route to Woolcock St

Other impacts that may be associated with this work:

- Reversing beepers and flashing lights are a safety requirement and will be used at all times during works.
- For your safety and the safety of the workers on site, **please adhere to traffic signs and directions**, so that everyone can get home safely.

Please note that all works are subject to weather and other site conditions and published timing may change.

Getting in touch with us

To keep up to date on the project, to provide feedback, or to **register for future updates via email or SMS**, scan the QR code or visit our project web page [Garbutt substation upgrade - Ergon Energy](#) .
