

Asbestos Clearance Certificate Form

Part of the Energy Queensland Group

SECTION A – CLEARANCE CERTIFICATE DETAILS

Note: Must be completed prior to reoccupation of the area after any Asbestos Removal Work or work that involved the disturbance of asbestos containing materials (ACM). Where Licensed asbestos removal work is/has being conducted, an Independent licensed asbestos assessor or equivalent must carry out the clearance inspection and complete this form. If the work involved removal of non-licensed quantities of asbestos, and/or the disturbance of asbestos containing material, then the form can be completed by a suitable competent person.

Ergon Energy or Energex (EE or EGX) details	
Name of EE or EGX (not Contractors) person who commissioning the work:	
Contact details:	
Asbestos related work/ Removal work details	
Dates asbestos related work/removal work carried out:	
Site address where asbestos related work/removal work is being carried out:	
Details of the specific asbestos related work /asbestos removal work area(s):	
Name of Company conducting the asbestos related work/asbestos removal:	
Asbestos Removal Licence Number (if applicable):	
Name and contact details of licensed asbestos removalist supervisor (if different to removalist):	
Quantity and Type i.e. Friable/Bonded of ACM that was removed (m ² or Kg)	
Inspection details	
Date of clearance inspection:	
Time of clearance inspection:	

SECTION B – ASBESTOS RELATED WORK/ASBESTOS REMOVAL WORK PAPERWORK

	Yes	No
Do you have a copy of the asbestos removal control plan?		
Do you have a copy of the notification form?		
Do you have a copy of the Safe Work Method Statement (SWMS)?		
Is the asbestos related work /removal work consistent with the control plan, SWMS and the notification form? (e.g. use of enclosures, decontamination facilities, waste facilities)

SECTION C – ASBESTOS RELATED WORK/ASBESTOS REMOVAL WORK AREA

1. Visual Inspection

	Yes	No
Area Inspected		
Inspection of the specific area detailed in Section A <u>found no visible asbestos</u> remaining as a result of the asbestos related work /asbestos removal work carried out.		
Exclusions		
Can the area be reoccupied?		
Has additional information been attached? (e.g. photos, drawings, plans)		
Is air monitoring required (if no, proceed to Section E)		

2. Air monitoring

	Yes	No
Control air monitoring was carried out during the removal process. <u>The result was below 0.01f millilitre of air.</u>		
Air monitoring was carried out as part of the clearance inspection. <u>The result was below 0.01f millilitre of air .</u>		
Has the air monitoring sample been analysed by a NATA-accredited laboratory?		
Is the air monitoring report attached?		
Can the area be reoccupied?		

SECTION D – ENCLOSURES

1. Prior to dismantling the enclosure

	Yes	No
The area within the enclosure and the area immediately surrounding the enclosure was inspected and <u>no visible asbestos was found.</u>		
Air monitoring was carried out as part of the clearance inspection. <u>The result was below 0.01f/ml.</u>		
Is the air monitoring report attached?		
Can the enclosure be dismantled?		

Number of samples collected: _____

	Sample 1	Sample 2	Sample 3	Sample 4	Sample 5
RESULTS					

2. After the enclosure was dismantled and removed

	Yes	No
An inspection of the area in which the enclosure was erected and the area immediately surrounding the area where the enclosure was erected was inspected and <u>no visible asbestos was found.</u>		
Air monitoring was carried out as part of the clearance inspection. <u>The result was below 0.01f/ml.</u>		
Is the air monitoring report attached?		
Can the enclosure be dismantled?
