

PV Industry Alert

March 2016 – Issue 26

The new portal is on its way

The launch of the new Electrical Partners Portal is not far away.

In the coming weeks we'll be testing the portal with a number of electrical contractors who regularly lodge large numbers of Form A online requests. We're doing this to ensure the customer experience meets our high expectations before making the portal available to everyone!

While we are contacting the high users directly, if you're really keen to take part in the final testing phase, please email networkenquiries@ergon.com.au or call **13 74 66** Monday to Friday, 7:00am - 6:30pm. Please note places are limited.

In the meantime please continue to complete your [Form A](#) online as you always have, and we will keep you informed as to when things will change.

Thank you - we appreciate your patience as we implement this new system
