

## Lesson 8: Measuring Electricity

Part of Energy Queensland

# ENERGY DETECTIVES

# Today's task

In today's mission, you will measure the energy use of different appliances around your school! - energy assessment part 1

You will

- Predict which one will use the most energy and why
- Measure the energy use using an Energy Detective Kit
- Explain why that appliance used the most energy

# Measuring Electricity

As a class, you will read through and complete the Measuring Electricity Booklet as a class. Your teacher will model and help you on the board.

## You will need:

- Measuring Electricity Booklet
- Energy Detective Kits
- Different appliances around your school

Good luck in your mission!
