

We're securing the electricity supply at Grasstree Beach

Part of Energy Queensland

As Mackay's Southern Beaches communities grow, we're growing with you.

Ergon Energy Network is investing in the local electricity network to ensure a safe and reliable electricity supply for residents in the Grasstree Beach area.

The project will take place from April 2024 to the end of June 2024 and will involve the construction of a new section of powerline that will connect the Grasstree Beach community to the Louisa Creek substation. However, preliminary site preparation works including vegetation clearing and trimming will be conducted over November and early December 2023.

The new connection will help to improve the reliability of the electricity supply for Grasstree Beach locals.

We're committed to keeping the community informed as the project progresses. To register for electronic updates to be sent directly to you, and to find out more about the project, use the QR code, visit the project website www.ergon.com.au/grasstree-project or phone our project hotline on 1300 495 565.

Any personal information we collect about you will only be used and disclosed by us in accordance with our Privacy Statement available on our website.
