

Doomadgee Solar Farm and Battery Project Update

May 2025

The civil works have now been completed

The Doomadgee Aboriginal Shire Council have completed civil works, as part of this stage of the Doomadgee Solar and Battery Farm project, including the safe tanker unloading area.

Council CEO, Troy Fraser was very happy with the progress to date and praised the partnership between Ergon Energy Network and the Council.

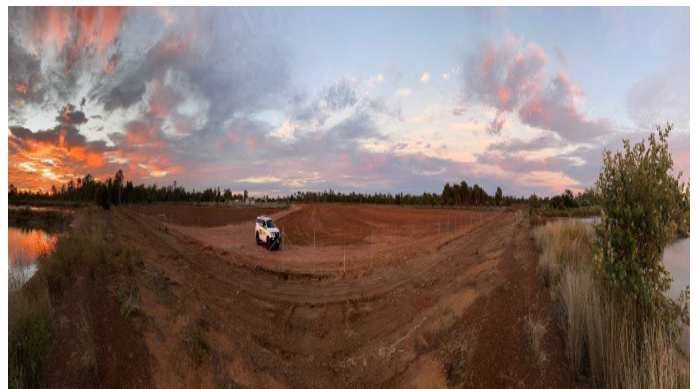

Clearing scrub for expansion work on site of existing Solar Farm

Completed clearing inside existing Solar Farm enclosure

Solar farm is moving ahead

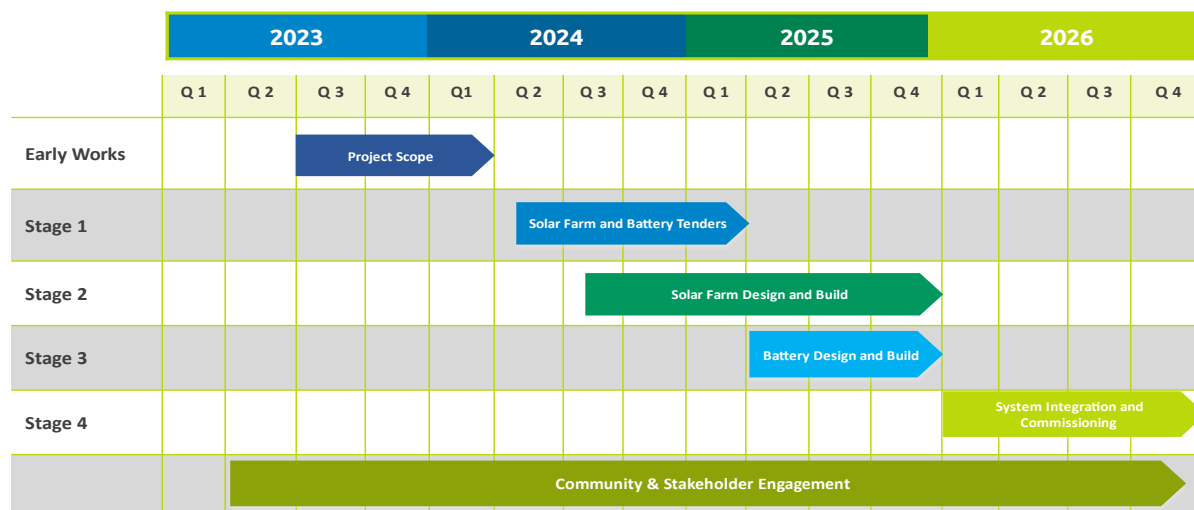

Yurika have the tender to build the solar farm.

They have already established their operations base in the community, and undertaken survey works in preparation for the installation of the rails and racks for the solar panels. Contractors have then installed the 231 piles, the foundations for the panels.
