

Ergon Energy Network's waiver register

The table below sets out a register of all waivers granted to Ergon Energy, and includes a description of the conduct to which the waiver applies and the terms and conditions of the waiver as set out in the AER's written decision.

Date waiver granted	Description of the conduct to which the waiver applies (as set out in the AER's decision to grant to waiver)	Terms and conditions of the waiver	Comments
18 December 2017	Waiver from the obligation under clauses 3.1 and 4.2.1, 4.2.2 and 4.2.3 of the Guideline in relation to the potential reclassification of the following services: <ul style="list-style-type: none"> o emergency recoverable works o public lighting and nightwatchman lights o high load escorts o property services o network related training courses o rental and hire services o sale of inventory 	Commencement: 18 December 2017 Expiry: 30 June 2020	
18 December 2017	Waiver from the obligations under clause 4.2.3 of the Guideline to allow Ergon Energy to continue to use the Ergon Energy brand for its retailer; Ergon Energy Queensland (EEQ). We propose to grant the waiver on the condition that: <ul style="list-style-type: none"> o Use of the EEQ brand is restricted to services that relate to the provision of standard retail contracts in the Ergon Energy distribution network. Behind-the-meter contestable services are specifically excluded from this waiver and must have separate branding from Ergon Energy, such that no reasonable person would infer that Ergon Energy and any AE delivering contestable services are related. 	Commencement: 18 December 2017 Expiry: 30 June 2025	
18 December 2017	Waiver from the obligations under clauses 4.2.1(a), 4.2.2(a) and 4.2.3(a)i of the Guideline to allow the offices at Mareeba and Charters Towers to be classified as regional offices for the purposes of the Guideline.	Commencement: 18 December 2017 Expiry: 30 June 2025	
18 December 2017	Waiver from the obligations under clauses 3.1(b), 4.2.1(a), 4.2.2(a) and 4.2.3(a) of the Guideline. This waiver will allow Ergon Energy to continue to offer generation, distribution and retail services, using its own brand and distribution staff in remote areas of Queensland	Commencement: 18 December 2017 Expiry: 30 June 2025	
18 December 2017	Waiver from the obligations under clause 4.2.3 to allow them to continue use Energex and Ergon Energy branding on uniforms and fleet used in the provision of the following other services: <ul style="list-style-type: none"> o Type 1-4 metering services o test, inspect and calibrate services o contracting services to other network service providers o operation and maintenance of customer assets o equipment services o construction and maintenance of modular substations o training to external parties - network related training courses 	Commencement: 1 January 2018 18 December 2017 Expiry: 31 December 2019	
18 December 2017	Waiver from the obligations under clause 4.2.3 of the Guideline. This waiver will allow Ergon Energy to continue to provide a connection service under long-term contract, to Hayman Island.	Commencement: 18 December 2017 Expiry: 30 June 2025	

This register is maintained and made publicly available in accordance with clause 5.7(a) of the Australian Energy Regulator Ring-fencing Guideline Electricity Distribution.

Ergon Energy Network's information sharing register

The table below lists the legal entities, including Ergon Energy's related electricity service providers, who have requested access to information identified in clause 4.3.4(a), and a description of the kind of information requested.

ID	Legal entity who has requested to be included on this Information Sharing Register		Description of information requested by the legal entity
	Name	ABN	
	No requests have been received to date.		

This register is maintained and made publicly available in accordance with clause 4.3.5(a) of the Australian Energy Regulator Ring-fencing Guideline Electricity Distribution.

Ergon Energy Network's staff sharing register

This register has been prepared in accordance with clause 4.2.4(b) of the Australian Energy Regulator's Ring-fencing Guideline Electricity Distribution Version 2 October 2017.

Nature of position	Description of role	Examples of roles	Considerations			
			Clause 4.2.2(b)(i)(a)	Clause 4.2.2(b)(i)(b)	Clause 4.2.2(b)(iii)	Clause 4.2.2(d)
General Skilled Worker / Trade Skilled Worker	Maintaining and constructing network infrastructure and components. Installation of substation secondary control systems and HV equipment. Operate vehicles, plant and equipment. Interpret and understand design drawings. Maintain, test, calibrate and manage tools and equipment to approved standards	Apprentice Boilermaker Distribution Powerline Apprentice Electrical Fitter Mechanic/Electrotech Apprentice Equipment Compliance Officer Equipment Services Equipment Officer Equipment Services Power Worker Fitter Mechanic Generation Operations Power Worker Mechanical Fitter Plant Operator Power Station Attendant Power Worker Borer / Digger / Lifter Operator Power Worker Pole Nailor Property Officer Recycling & Repair Operator Senior Mechanical Fitter Sheet Metal Worker Team Member Warehouse & Distribution Technical Support Officer - Electrical Warehouse Operator	No	Yes	Yes in some situations	No
Electrical Technician / Technical Officer	Responsible for the construction, repair and maintenance of power supply and telecommunications components. Primarily work in the field traveling to different locations to construct, troubleshoot, diagnose, and resolve problems. Maintain, Test and Calibrate Equipment to approved Standards	Advanced Connection Officer Advance Conneciton Officer Level 2 Cable Joiner Cable Joiner Restricted Electrical Connection Officer Generation Technician Linesperson Live Linesperson Senior Civil Technical Officer Substation Technical Service Person Systems Electrician Technical Service Person Technical Service Person Metering Officer Technical Service Person Mobile Test Facility Test Officer Mobile Facility Test Technician Transmission Linesperson Transmission Live Linesperson Survey Officer HV Test and Calibration Technician Standards Laboratory Technician Instrument and Standards Technician	No	Yes	Yes in some situations	No
Electrical Designers / Design Officers	Support electrical engineers with initial design requirements, production of drawings. Determining and documenting the type and arrangement of circuits, transformers, circuit-breakers, transmission lines and other equipment.
