

Existing Energex Dual DC Supply Scheme

Existing Ergon Dual DC Supply Scheme

Figure 1 DC System Schemes

5. Contract Items

Until an EQL wide DC systems contract is in place the contract items on the existing Energex or Ergon period contract items are to be used.

Refer to the [Consolidated Plant Listing](#) for additional details.

Energex	TSD079d	Substation Battery Chargers and Batteries
Ergon	015	Substation Battery and Chargers Selection Guide

6. Update to Manuals

During 2020 EQL Substations Standards plan to merge the requirements of RED 693, Standard Network Building Blocks - Substations and STNW3022, Substation Standard for DC Supplies. The changes here will be included in the merged document.

7. Further Information

For further information, please contact Greg Carlill, +61 7 3664-4948, (greg.carlill@energyq.com.au)
