

Standards Alert

Subject: Ergon Underground Construction Manual Version 14	Control Ref No: StdsA559
	Date Issued: 09/03/2020
	Supersedes: N/A
For Policy/Procedure/Manual: Ergon Underground Construction Manual	Expiry Date: 09/04/2020
Originating Dept: Asset Standards:- Line Standards	
Target Audience: Northern /Southern	

1. Objective

This Standard Alert is to advise the Ergon Energy Underground Construction Manual has been updated to Issue 14.

2. Introduction

Major changes in this update include:

- Introduction of a new 3 way linking pillar
- Introduction of a double (single circuit) 240mm² cable termination on a pole.
- Addition of LV Circuit breaker kit suitable for mounting in 11kV square padmounted substation
- Update to Fibre Optic constructions to include 96 core joint kit.

3. Update to Manuals

An updated copy of the [Ergon Underground Construction Manual Version 14](#) is available via the Asset Standards SharePoint site or FFA system for internal staff.

The up-dated manual is available to external service providers via the internet.

Printed copies have not been published for this manual. The Manual is an uncontrolled document when printed.

4. Deployment

Compliance with the requirements of the revised Ergon Underground Construction Manual Version 14 is expected from publication of the manual and this Standards Alert unless dispensation is granted in writing by Energex or Ergon Energy having regard to the circumstances.
