

**We're securing the
electricity supply
across the
Whitsundays**

Part of Energy Queensland

As the Whitsundays grows, we're growing with you.

We are investing \$27.5 million to ensure a safe and reliable electricity supply for residents and businesses across the Whitsundays region.

This major upgrade to the electricity network will involve refurbishing and expanding the Cannonvale substation, and duplicating sections of the network between Cannonvale and Shute Harbour.

We are committed to keeping the community informed as the project develops. To register for electronic updates and to find out more about the project, scan the QR code or visit the project website **ergon.com.au/whitsundays-project**. Or call our hotline 1300 653 055.

Any personal information we collect about you will only be used and disclosed by us in accordance with our Privacy Statement available on our website.
