

Certificate of Lighting Design

Project Name:	
Project Location:	
Work Request No:	Constructed Plan No:

I/We _____ of _____ being the Developers' Lighting Designer for the above project do hereby certify that Ergon Energy's requirements in accordance with RSD01, Standard Specification UDC Design have been completed, including the following:

- (i) Documentation to demonstrate Public Body lighting scheme approval and agreement of the lighting category, or categories, to be applied.

Documentation to demonstrate compliance to:

AS/NZS 1158. Note that compliance is deemed to be achieved if Ergon Energy standard luminaires are used and all other aspects of AS/NZS 1158 are met; or alternatively;

Public Body specified requirements should the Public Body not require AS/NZS 1158 compliance complete and attach the Ergon Energy "Non-Standard Street Lighting Indemnity Deed", with this certificate.
- (ii) Documentation to demonstrate acceptance by the Public Body of the lighting design including the alignment and location of poles as detailed on the Construction Plan.
- (iii) Use of Ergon Energy luminaire photometric data.
- (iv) Use of Ergon Energy current standard lighting components in accordance with the Lighting Construction Manual
